

8x10 pair wall test

This is not the artwork. It is a size-planning sheet only.

- 1) Print all pages in this pack at 100% on plain paper.
- 2) Confirm each outline measures exactly 8x10 inches.
- 3) Tape pages 1 and 2 on the wall about 2 to 3 inches apart.

If your printer keeps forcing fit-to-page, you can still use this sheet as a rough guide, then print the real art at a local shop.
