

8x10 wall test

This is not the artwork. It is a size-planning sheet only.

- 1) Print at 100% on plain paper.
- 2) Confirm the outline measures exactly 8x10 inches.
- 3) Tape or hold it on the wall to judge size and placement.

If your printer keeps forcing fit-to-page, you can still use this sheet as a rough guide, then print the real art at a local shop.
